

PUBLISHED.
The Farmer's Library and Monthly Journal
of Agriculture for AUGUST is now ready. The
contents are:

FARMERS' LIBRARY.

LECTURES TO FARMERS ON AGRICULTURAL
CHEMISTRY. By ALEXANDER PETZOLTH. (Con-
tinued.)

SECTION TWO (Continued).—
Lecture 12: *Source of the Carbon of Plants*. Whence do
Plants derive their Carbon from Human? or the Car-
boniferous Earth? The Oxygen, Hydrogen and Nitrogen of Plants
Source of these Elements of Plants, and of the Sulphur and
Phosphorus.

Lecture 13: *The Inorganic Constituents of Plants*.—A few
words on the *Axes of Plants*.

SECTION THREE.

Lecture 14: *Fallow and its Effects*.—In the Practical Section
of the Course. The Nature, Use, and Effects of Fallow.

Lecture 15: *Retention of Crop*.

Lecture 16: *General Remarks upon Manures and
Manuring*.—The Nature, Properties and Value of Vegetable, An-
imal, and Mineral Manures.

Lecture 17: *Vegetable Manure*. Green Manure, Humus,
Ashes of Plants, Waste.

Lecture 18: *Mineral Manures*. Fossils Urine—their Origin
and Properties, Bones, other Animal Urines, Urine
Gums, Salts of Ammonium.

Lecture 19: *Sulphuric Manure*. Lime, Sulfuric Acid,
Gum, Vitriol, Salts, Muriatic Acid.

Lecture 20: *Summary and Conclusion*.

APPENDIX: *General*, *Principles of Agriculture*.—By Albert
B. D. (See our next Republication. See page 166 Farmers'
Library.)

MONTHLY JOURNAL OF AGRICULTURE.
Lady STEPHEN, with a Portrait of the Queen, Her Royal Highness,
President of the Board of Agriculture, House of the United States,
Gives Notice, of Gen. T. M. FORMAN, of Md., with a
Compendious History, derived from his Importations of
London's Agricultural Exports, &c.—The Northern and Mid-
Western, the best in England Described.

DRIVING.—One of the great improvements in pro-
gress to supply bread to the increasing population of Eng-
land.—How conducted.—Its valuable results stated.

WATER MEADOWS.—How made and managed.

ENTOMOLOGY, or a Discourse on Insects.

COMPARATIVE VALUE OF DIFFERENT KINDS OF SHEEP FOR
THE NEW YORK FARMER.

ON THE PRESERVATION OF HEALTH.—The good effects of

THE CAUSE OF EDUCATION.—As connected with Agricul-
ture in the South.—(Letter from Thomas Atleck, Esq., Com-
mittee of the National Institute, to the Editor of the Farm-
er's Library.)

AGRICULTURAL ASSOCIATIONS AND SCIENCE.—What they are
doing.—Agriculture England.

DRAVING.—The cheap method of Making and Burn-
ing Lime as a Fertilizer.

ELECTRICITY.—Applied to Agriculture and Horticulture.

THE AMERICAN AGRICULTURAL SOCIETY.—Cattle Show

and Fair, for 1846, to be held at Union, September 16, 17, 18.

AMERICAN FAIR.—Baltimore.

BESTS CURRENT.—The New York Water.

MISCELLANEOUS.—Plant Writing, Artificial Manures, Agri-
culture in Texas.—The best manure for filling up
wells in Texas.—Don't soil your Rhubarb to Seed.

TERMS: \$5 a year; Five copies for \$3. Single num-
bers 50 cents. Address GREEN & MC LARATH, New-York.

GREEN & MC LARATH, New-York.

THE CAUSE OF FEVER.—So-called and Magendie by in-
jecting pure saline into the veins of animals, produced
false information. We find therefore, by the demonstra-
tive experiment, that impurity of the whole mass of the blood
may be the cause of fever, and that the fever may be
the effect of the impurity, and hence a bad state of the en-
tire mass of the venous blood may have no other index
than a single humor, a few serous vessels, an abscess, or a
swelling, &c., to the source of the disease in the blood, the
next thing is to select the remedial agent most salutary,
sure and uniform in its action, and to apply it with
certainty.—The experiments of Dr. H. C. Jones, and Dr.
D. W. Jones, in their scientific experiment, if the dif-
ferent states of the blood itself before and after the exhibition
of a remedy, be any proof of its superior virtues, that
special agent will be selected.

DRUGS and WHOLESALE and RETAIL, by A. B. D. &
S. H. SCHAFFNER, 79 Fulton-street, New-York.

Sold also at 213 Broadway, 77 East Broadway, and by Drug-
gists in all the principal cities of the United States. Price \$1 per
bottle. Six bottles for \$6.

RELIEF FOR DEAF PERSONS.—The numerous testimonials
we daily receive of the efficacy of Dr. McNair's
Oil in curing deafness, render it worthy of the no-
tice of all who are thus afflicted. Mr. William Haydon,
of New-York, has written to us, that he has been free
from the malady of deafness of several years standing, by
the use of Dr. McNair's Oil, and after using it according to
the directions, I recovered my hearing entirely.

Mr. Ingoldsby is well known in the State of Maine, having
sold several hours off, & his certificate is entitled to
implicit belief. COMSTOCK & CO. 21 Cornhill-street,
one article—price \$1 per flacon.

ROBERT CARPENTER, 440 Madison Avenue, and Ferry.

To the Dear.—Danville, Me. Oct. 7, 1844.—I hereby certify

that I was affected with deafness for about four years in one
ear, and with the other about a week. After trying various
remedies recommended by myself, I gave up the use of
them, and after using it according to its directions, I recovered

my hearing entirely.

JOHN T. MAHER, 101 Madison Avenue, and Ferry.

To the Dear.—Danville, Me. Oct. 7, 1844.—I hereby certify
